

SAM NOTTINGHAM

WEB DEVELOPER | PROJECT MANAGER

EXECUTIVE SUMMARY

As a web developer with a background in project management and data analysis, I bring a methodical but creative approach to solving problems. I have a passion for dreaming and learning about new technologies that can be built to impact the world. Whether as a team member or on my own, I thrive on taking those dreams and bringing them to life.

WORK EXPERIENCE

General Assembly, Full-Time Web Development Immersive

Washington, DC | 10/2018 - Present

- WDI student at a full-stack web development program in object-oriented programming, learning to create real world web applications, such as:
- Medi-Share - an app that shows average prices of procedures for uninsured patients at hospitals near them. Used React for frontend (coupled with react google maps / google autocomplete) and Express/MongoDB for backend.
- Trail To The Best - an app that allows friends to upload and rate movie trailers. Used Handlebars for frontend and Express/MongoDB for backend.
- RoomKind - a team developed app to connect the homeless with shelters and willing residences. Used React for frontend and Express/MongoDB for backend.

Senior Project Leader, Mercury Analytics

Washington, DC | 02/2016 - 10/2018

- In a fast-paced, high-pressure entrepreneurial environment, led company-wide operations team and increased annual number of projects by 20% and overall revenue by ~27%.
- Conducted research, analyzed data and presented insights to global clients such as: NBC, CNN, MSNBC, FOX News, NBA, Condé Nast, Hearst, and Time.
- Worked closely with clients to plan and produce the Benchmark Database and individual client reports, to deliver actionable metrics for all projects.
- Generated internal operations reports, presented findings to Mercury CEO for team performance evaluation and creation of procedural improvements.
- Developed Project Manager and Remote Tester Manual, an organized guide for new or remote hires, greatly reducing project delivery times.

Market Analyst Intern, Command & Control Systems

Washington, DC | 10/2015 - 02/2016

- Identified, assessed and presented military/commercial Science & Technology capabilities and reports for more refined market evaluation.

Business Teacher, Further School of English

Buenos Aires, Argentina | 03/2015 - 10/2015

- Specialized in teaching Business English to Argentine and Brazilian executives, developing more impactful interactions in English markets.

Regional Coordinator, NH Gubernatorial Campaign

New Hampshire, Manchester | 07/2014 - 12/2014

- Captured ~70% of votes for NH's largest voting region (~30% of NH votes).
- Created and maintained extensive constituent database to augment outreach program for over 500 individuals.
